Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

This Office Action is in response to applicant's amendment filed on May 4, 2004.

Claims 1 and 3-5 have been amended. Claim 21 has been cancelled.

Claims 5-16 and 18-20 have been withdrawn from further consideration as being directed to a non-elected species, as elected without traverse and as filed on February 27, 2004.

Applicant did not incorporate all of the limitations in claims 3 and 4 into the independent claim to include all of the limitations of the base claim. Therefore, the claims, as amended, have been carefully considered, however, they are not allowable in view of a newly discovered reference to Kidwell et al of U.S. Patent No. 6,328,030.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Kidwell et al (U.S. Patent No. 6,329,030). Kidwell et al discloses in Figure 1 a nebulizer (50) for containing liquid and having the upper section (54) engaging with the housing (33). Figure 11 illustrates the housing having at least one opening (190) disposed in the nebulizer wall to allow

Art Unit: 3743

the fluid to flow into and out of the housing. The housing having a slightly larger diameter than that of the nebulizer at the point where the housing and the nebulizer are engaged.

The introductory statement of intended use and all other functional statements have been carefully considered but deemed not to impose any structural limitations on the claims distinguished over the Kidwell et al device in the sense of 35 USC 102 which is capable of being used as set forth in the claims.

Allowable Subject Matter

Claims 3 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3743

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
